

Action Plan for Learning 2024-25

<https://lfas.sd35.bc.ca>

SCHOOL VISION/MISSION:

Our vision is to provide a comprehensive education for students, while focusing on the development of aesthetic intelligence through programs in the Visual Arts, Creative Writing, Dance, Drama, Music, and Photography. We realize this vision by encouraging and enabling students to Explore, Create, and Inspire!

SCHOOL GOALS:

LITERACY AND NUMERACY:

Improving and sustaining literacy and numeracy in K-12 through the use of our Learning Pathways and common assessments to identify areas of needed growth for all learners.

SOCIAL EMOTIONAL LEARNING:

To promote resiliency in our students by explicitly teaching universal resilience skills, and providing opportunities to demonstrate resilience in all learning environments

ARTS FOCUSED GOAL:

To provoke creative excellence by fostering curiosity, resilience, and risk-taking while giving equal importance to process and product in the expression of individual voice and exploration of the human experience through the arts.

RESOURCES TO SUPPORT OUR WORK:

KEY RESOURCES & ANCHOR DOCUMENTS

"Reclaiming our Students" - Hannah Beach
Hannah Beach staff and parent workshops
Fountas and Pinnell Assessments
The Dibels Reading Assessment
School generated common assessments
School generated Learning Pathways

UNIFIED ACTIONS:

In general, our teachers are being intentional about creating classroom environments that encourage exploratory learning; environments that allow students to learn from their mistakes and work through problems.

Departments and Pods will build and utilize common assessments to identify areas of growth for all learners. These common assessments (and assessment practices) will help identify vulnerable learners and allow for informed and targeted support.

Who We Are:

LFAS is a K- 12 school with approximately 900 students. LFAS is committed to meeting the needs of all learners. We embrace diversity and create a supportive environment for the unique individuals that make up our student body. Our aim is to allow exploration, creativity, and inspiration to be essential components in all of our learning experiences.
